SECTION X

DOCTORAL SCHOLARSHIP

§ 30

1. A doctoral student who is not a holder of the degree of *doktor* [doctoral degree] receives doctoral scholarship.
2. An overall period in which doctoral scholarship is received may not exceed four years.
3. A period of suspension of studies specified in § 29 is not included in the period defined in point 2.

§ 31

 - 2) 57% of the remuneration for professors – following the month in which mid-term assessment is made.
2. The amount of monthly doctoral scholarship is determined by the Rector.
3. The amount of doctoral scholarship may depend on a doctoral student's achievements. The criteria and procedure of awarding an increased scholarship and its amount are established by the Rector.

6. The University pays social insurance contributions stipulated in the regulations on social insurance system – obligatory old age pension, disability pension and accident insurance. Doctoral scholarship is not awarded to a doctoral student receiving remuneration of at least 150% of the amount of the doctoral scholarship to which they are entitled, in accordance with Item 1 under employment by the University, in connection with the implementation of a research project referred to in Article 119 Item 2 Points 2 and 3 of the Act of 20 July 2018 - Law on Higher Education and Science, during the period of that employment.

§ 32

1. In the period of suspension of studies specified in § 29, the provisions on determining the maternity benefit are applied accordingly when establishing the amount of doctoral scholarship, however, the basis for the benefit assessment is understood as the amount of monthly doctoral scholarship due on the day of filing a request for suspension.
2. A doctoral student who submitted their doctoral dissertation, before the set date of completion of studies stipulated in the programme of studies, receives the doctoral scholarship until the day on which the time limit for completion of studies ends, however, no longer than for a period of six months, subject to § 30 Item 2.
